

# THE NIGERIAN LIVING STANDARDS SURVEY 2018-2019 DATASET - CODEBOOK

---

ENYENAWEH RESEARCH NIGERIA

*January 2021*

## EXECUTIVE SUMMARY

At Enyena weh, we love working with data. Collecting data from individuals, households, and firms is often an expensive endeavor. Therefore, making publicly available data accessible for statistical analysis by think tanks, researchers, and academics is one of the main goals of Enyena weh. We hope that this codebook and the dataset will provoke new studies to understand socio-economic disparity across the 36 Nigerian states and its six geopolitical zones.

Between July- December 2020, we coded each variable in the Nigerian Living Standards Survey 2018-2019, published by the Nigerian Bureau of Statistics. The result is the dataset accompanying this codebook.

Enyena weh Research Endowment funded this project. A fund made possible by the Board of Trustees of Enyena weh Research Foundation.

We look forward to your feedback!

Sincerely,  
Jennifer Obado Joel

President,  
Enyena weh Research

This codebook explains the data input on the Nigerian Living Standards Survey in Microsoft Excel format from the Nigeria Living Standards Survey 2018-2019 report by the Nigerian Bureau of Statistics.

### **Acknowledgement**

We are grateful for the Board of Trustees of Enyenaweh Research Nigeria for the funding for this project. We are also grateful for the excellent work by our research team led by our Research and Programs Implementation Officer- Temitope Dawon.

## **1. Demography**

1. Age-Male All: Age of the Total Male Population
2. Age-Male 0-5: Males between 0-5years
3. Age-Male 6-9: Males between 6-9years
4. Age-Male 10-14: Males between 10-14years
5. Age-Male 15-64: Males between 15-64years
6. Age-Male 65+: Males between 65+years
7. Age-Female All: Age of the Total Female Population
8. Age-Female 0-5: Females between 0-5years
9. Age-Female 10-14: Females between 10-14years
10. Age-Female 15-64: Females between 15-64years
11. Age-Female 65+: Females between 65+years
12. NM-Male (Never Married Male)
13. NM-Female (Never Married Female)
14. MM Male (Married Mono Male)
15. MM Female (Married Mono Female)
16. MPoly Male (Married Poly Male)
17. MPoly Female (Married Poly Female)
18. IU Male (Informal Union Male)
19. IU Female (Informal Union Female)
20. D/S Male (Divorced/Separated Male)
21. D/S Female (Divorced/Separated Female)
22. W Male (Widowed Male)
23. W Female (Widowed Female)

## **2. Education**

1. E Male: English Male
2. E Female: English Female
3. I Male: Igbo Male
4. I Female: Igbo Female
5. H Male: Hausa Male
6. H Female: Hausa Female
7. Y Male: Yoruba Male
8. Y Female: Yoruba Female
9. OL Male: Other Language Male
10. OL Female: Other Language Female
11. AL Male: Any Language Male
12. AL Female: Any Language Female
13. All Any Language
14. SandAG Male 5-9: Sex and Age Groups of Male between 5-9years
15. SandAG Female 5-9: Sex and Age Groups of Female between 5-9years
16. SandAG Male 10-14: Sex and Age Groups of Male between 10-14years
17. SandAG Female 10-14: Sex and Age Groups of Female between 10-14years
18. SandAG Male 15-24: Sex and Age Groups of Male between 15-24years
19. SandAG Female 15-24: Sex and Age Groups of Female between 15-24years

20. SandAG Male 25-34: Sex and Age Groups of Male between 25-34years
21. SandAG Female 25-34: Sex and Age Groups of Female between 25-34years
22. SandAG Male 35-44: Sex and Age Groups of Male between 35-44years
23. SandAG Female 35-44: Sex and Age Groups of Female between 35-44years
24. Pa12 Male 45-54: Percentage Reporting Literacy in English by Sex and Age Groups of Male between 45-54years
25. Pa12 Female 45-54: Percentage Reporting Literacy in English by Sex and Age Groups of Female between 45-54years
26. Pa12 Male 55-64: Percentage Reporting Literacy in English by Sex and Age Groups of Male between 55-64years
27. Pa12 Female 55-64: Percentage Reporting Literacy in English by Sex and Age Groups of Female between 55-64years
28. Pa12 Male 65+: Percentage Reporting Literacy in English by Sex and Age Groups of Male 65+years
29. Pa12 Female 65+: Percentage Reporting Literacy in English by Sex and Age Groups of Female 65+years
30. Pa12 All Male: Percentage Reporting Literacy in English by Sex and Age Groups of All Male
31. Pa12 All Female: Percentage Reporting Literacy in English by Sex and Age Groups of All Female
32. Pa12 All All: Percentage Reporting Literacy in English by Sex and Age Groups of All All
33. LOTE Male 5-9: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 5-9years
34. LOTE Female 5-9: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 5-9years
35. LOTE Male 10-14: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 10-14years
36. LOTE Female 10-14: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 10-14years
37. LOTE Male 15-24: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 15-24years
38. LOTE Female 15-24: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 15-24years
39. LOTE Male 25-34: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 25-34years
40. LOTE Female 25-34: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 25-34years
41. LOTE Male 35-44: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 35-44years
42. LOTE Female 35-44: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 35-44years
43. LOTE Male 45-54: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 45-54years

44. LOTE Female 45-54: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 45-54years
45. LOTE Male 55-64: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male between 55-64years
46. LOTE Female 55-64: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female between 55-64years
47. LOTE Male 65+: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Male 65+ years
48. LOTE Female 65+: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of Female 65+years
49. LOTE All Male: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of All Male
50. LOTE All Female: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of All Female
51. LOTE All All: Percentage Reporting Literacy in Language Other Than English by Sex and Age Groups of All All
52. AYE Male 5-14: Average Years of Education by Sex and Age Groups of Male between 5-14years
53. AYE Female 5-14: Average Years of Education by Sex and Age Groups of Female between 5-14years
54. AYE Male 15-24: Average Years of Education by Sex and Age Groups of Male between 15-24years
55. AYE Female 15-24: Average Years of Education by Sex and Age Groups of Female between 15-24years
56. AYE Male 25-34: Average Years of Education by Sex and Age Groups of Male between 25-34years
57. AYE Female 25-34: Average Years of Education by Sex and Age Groups of Female between 25-34years
58. AYE Male 35-64: Average Years of Education by Sex and Age Groups of Male between 35-64years
59. AYE Female 35-64: Average Years of Education by Sex and Age Groups of Female between 35-64years
60. AYE Male 65+: Average Years of Education by Sex and Age Groups of Male 65+years
61. AYE Female 65+: Average Years of Education by Sex and Age Groups of Female 65+years
62. AYE All Male: Average Years of Education by Sex and Age Groups of All Male
63. AYE All Female: Average Years of Education by Sex and Age Groups of All Female
64. AYE All All: Average Years of Education by Sex and Age Groups of All All
65. Primary Male: Net Attendance by School Level and Sex in percent of population of school age for Primary Male
66. Primary Female: Net Attendance by School Level and Sex in percent of population of school age for Primary Female
67. Primary All: Net Attendance by School Level and Sex in percent of population of school age for Primary All

68. JS Male: Net Attendance by School Level and Sex in percent of population of school age for Junior Secondary Male
69. JS Female: Net Attendance by School Level and Sex in percent of population of school age for Junior Secondary Female
70. JS All: Net Attendance by School Level and Sex in percent of population of school age for Junior Secondary All
71. SS Male: Net Attendance by School Level and Sex in percent of population of school age for Senior Secondary Male
72. SS Female: Net Attendance by School Level and Sex in percent of population of school age for Senior Secondary Female
73. SS All: Net Attendance by School Level and Sex in percent of population of school age for Senior Secondary All
74. All Male: Net Attendance by School Level and Sex in percent of population of school age for All Male
75. All Female: Net Attendance by School Level and Sex in percent of population of school age for All Female
76. All All: Net Attendance by School Level and Sex in percent of population of school age for All All
77. GER Primary Male: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Primary Male
78. GER Primary Female: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Primary Female
79. GER Primary All: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Primary All
80. GER JS Male: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Junior Secondary Male
81. GER JS Female: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Junior Secondary Female
82. GER JS All: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Junior Secondary All
83. GER SS Male: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Senior Secondary Male
84. GER SS Female: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Senior Secondary Female
85. GER SS All: Gross Enrolment Rates by School Level and Sex in percent of population of school age for Senior Secondary All
86. GER All Male: Gross Enrolment Rates by School Level and Sex in percent of population of school age for All Male
87. GER All Female: Gross Enrolment Rates by School Level and Sex in percent of population of school age for All Female
88. GER All All: Gross Enrolment Rates by School Level and Sex in percent of population of school age for All All
89. SAAC G Male: Type of School Attended Among Children in percent of population 6-17 years of age for Government Male

90. SAAC G Female: Type of School Attended Among Children in percent of population 6-17 years of age for Government Female
91. SAAC R Male: Type of School Attended Among Children in percent of population 6-17 years of age for Religious\* Male
92. SAAC R Female: Type of School Attended Among Children in percent of population 6-17 years of age for Religious\* Female
93. SAAC P Male: Type of School Attended Among Children in percent of population 6-17 years of age for Private Male
94. SAAC P Female: Type of School Attended Among Children in percent of population 6-17 years of age for Private Female
95. SAAC O Male: Type of School Attended Among Children in percent of population 6-17 years of age for Other Male
96. SAAC O Female: Type of School Attended Among Children in percent of population 6-17 years of age for Other Female
97. Boarding: Proximity to School Among Children in percent of population 6-17 years of age for Boarding
98. 0-15 min: Proximity to School Among Children in percent of population 6-17 years of age for 0-15 min
99. 16-30 min: Proximity to School Among Children in percent of population 6-17 years of age for 16-30 min
100. 31-45 min: Proximity to School Among Children in percent of population 6-17 years of age for 31-45 min
101. 46-60 min: Proximity to School Among Children in percent of population 6-17 years of age for 46-60 min
102. 61+ min: Proximity to School Among Children in percent of population 6-17 years of age for 61+ min
103. P 0-15 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Primary Level within 0-15 Min
104. P 0-15 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Primary Level within 0-15 Min
105. P 16-30 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Primary Level within 16-30 Min
106. P 16-30 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Primary Level within 16-30 Min
107. P 31-45 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Primary Level within 31-45 Min
108. P 31-45 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Primary Level within 31-45 Min
109. P 46-60 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Primary Level within 46-60 Min
110. P 46-60 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Primary Level within 46-60 Min
111. P 61+ Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Primary Level within 61+ Min

112. P 61+ Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Primary Level within 61+ Min
113. S 0-15 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Secondary Level within 0-15 Min
114. S 0-15 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Secondary Level within 0-15 Min
115. S 16-30 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Secondary Level within 16-30 Min
116. S 16-30 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Secondary Level within 16-30 Min
117. S 31-45 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Secondary Level within 31-45 Min
118. S 31-45 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Secondary Level within 31-45 Min
119. S 46-60 Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Secondary Level within 46-60 Min
120. S 46-60 Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Secondary Level within 46-60 Min
121. S 61+ Min Male: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Male in Secondary Level within 61+ Min
122. S 61+ Min Female: Proximity to School Among Children by Sex (in percent of population 6-17 years of age) for Female in Secondary Level within 61+ Min
123. A6 06-09 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 06-09years
124. A6 06-09 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 06-09years
125. A6 10-14 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 10-14years
126. A6 10-14 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 10-14years
127. A6 15-24 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 15-24years
128. A6 15-24 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 15-24years
129. A6 25-34 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 25-34years

130. A6 25-34 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 25-34years
131. A6 35-44 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 35-44years
132. A6 35-44 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 35-44years
133. A6 45-54 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 45-54years
134. A6 45-54 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 45-54years
135. A6 55-64 Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 55-64years
136. A6 55-64 Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 55-64years
137. A6 65+ Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Male between 65+years
138. A6 65+ Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for Female between 65+years
139. A6 All Male: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for All Male
140. A6 All Female: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for All Female
141. A6 All All: Share of Population Who Have Never Attended School by Age Groups and Sex (in percent of population above 6 years of age) for All All
142. Too young Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Too young Male
143. Too young Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Too young Female
144. Too far away Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Too far away Male
145. Too far away Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Too far away Female
146. Too expensive Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Too expensive Male
147. Too expensive Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Too expensive Female
148. Not useful\* Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Not useful\* Male
149. Not useful\* Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Not useful\* Female
150. Illness/disability Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Illness/disability Male
151. Illness/disability Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Illness/disability Female

152. Parents not interested/opposed to schooling Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Parents not interested/opposed to schooling Male
153. Parents not interested/opposed to schooling Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Parents not interested/opposed to schooling Female
154. Other\*\* Male: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Other\*\* Male
155. Other\*\* Female: Reasons for Never Attending School by Sex (in percent of individuals above 6 years of age who have never attended school) for Other\*\* Female
156. No School Male: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Male with No School experience
157. No School Female: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Female with No School experience
158. Primary Male: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Male with Primary Education
159. Primary Female: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Female with Primary Education
160. JS Male: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Male with Junior Secondary experience
161. JS Female: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Female with Junior Secondary Education
162. SS Male: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Male with Senior Secondary Education
163. SS Female: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Female with Senior Secondary Education
164. Tertiary Male: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Male with Tertiary Education
165. Tertiary Female: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Female with Tertiary Education
166. Other Male: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Other Male
167. Other Female: Highest Level of Education Attainment by Sex in percent of population above 25 years of age) for Other Female

### **3. Health**

1. 0-4 Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Male between 0-4years
2. 0-4 Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Female between 0-4years
3. 5-9 Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Male between 5-9years
4. 5-9 Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Female between 5-9years
5. 10-14 Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Male between 10-14years

6. 10-14 Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Female between 10-14years
7. 15-49 Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Male between 15-49years
8. 15-49 Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Female between 15-49years
9. 50-64 Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Male between 50-64years
10. 50-64 Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Female between 50-64years
11. 65+ Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Male between 65+years
12. 65+ Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for Female between 65+years
13. All Male: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for All Male
14. All Female: Share of Population with Any Health Problems in the Last 30 Days by Sex and Age Group (in percent of total population) for All Female
15. Type 1 Malaria: Top 5 Illnesses or Injuries Suffered (in percent of population reporting any illness or injury in the last 30 days) for Type 1 Malaria
16. Type 2 Body Pains: Top 5 Illnesses or Injuries Suffered (in percent of population reporting any illness or injury in the last 30 days) for Type 2 Body Pains
17. Type 3 Headache: Top 5 Illnesses or Injuries Suffered (in percent of population reporting any illness or injury in the last 30 days) for Type 3 Headache
18. Type 4 Ulcer/Stomach pain: Top 5 Illnesses or Injuries Suffered (in percent of population reporting any illness or injury in the last 30 days) for Type 4 Ulcer/Stomach pain
19. Type 5 Catarrh: Top 5 Illnesses or Injuries Suffered (in percent of population reporting any illness or injury in the last 30 days) for Type 5 Catarrh
20. Hospital Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who attend Hospital
21. Hospital Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who attend Hospital
22. Dispensary/Pharmacy Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who attend Dispensary/Pharmacy
23. Dispensary/Pharmacy Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who attend Dispensary/Pharmacy
24. Chemist Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who attend Chemist
25. Chemist Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who attend Chemist
26. Patent Medicine Vendor Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who attend Patent Medicine Vendor

27. Patent Medicine Vendor Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who attend Patent Medicine Vendor
28. Clinic Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who attend Clinic
29. Clinic Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who attend Clinic
30. Maternity Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who attend Maternity center
31. Maternity Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who attend Maternity center
32. Home (C/P) Male (Consultant/Patient): Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male who make use of the Home (C/P) Male (Consultant/Patient)
33. Home (C/P) Female (Consultant/Patient): Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female who make use of the Home (C/P) Male (Consultant/Patient)
34. Other Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Other Male
35. Other Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Other Female
36. No Consultation Male: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Male with No Consultation
37. No Consultation Female: Type of Health Facility Visited by Sex (in percent of population reporting any illness or injury in the last 30 days) for Female with No Consultation
38. in Minutes HM (Hospital Male): Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for Male who attend Hospital
39. in Minutes HF (Hospital Female): Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for Female who attend Hospital
40. in Minutes CM (Clinic Male): Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for Male who attend Clinic
41. in Minutes CF (Clinic Female): Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for Female who attend Clinic
42. D/P/C/PMV Male (Dispensary/Pharmacy/Chemist/ Patent Medicine Vendor Male): Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for Male who attend Dispensary/Pharmacy/Chemist/ Patent Medicine Vendor
43. D/P/C/PMV Female (Dispensary/Pharmacy/Chemist/ Patent Medicine Vendor Female): Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for Female who attend Dispensary/Pharmacy/Chemist/ Patent Medicine Vendor
44. All Male: Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for All Male
45. All Female: Average Time for Consultation Including Travel Time by Type of Facility Visited in Minutes for All Female

46. NN/Mi or i Male (No Need/Minor illness or injury Male): Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Male with No Need/Minor illness or injury
47. NN/Mi or i Female (No Need/Minor illness or injury Female): Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Female with No Need/Minor illness or injury
48. Too Far Male: Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Male that feel it is Too Far
49. Too Far Female: Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Female that feel it is Too Far
50. Too Expensive Male: Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Male that feel it is Too Expensive
51. Too Expensive Female: Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Female that feel it is Too Expensive
52. Poor QoC Male (Poor Quality of care Male): Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Male due to Poor Quality of care
53. Poor QoC Female (Poor Quality of care Female): Reasons for Not Accessing Any Health Facility (in percent of population not visiting health facility) for Female due to Poor Quality of care
54. inpttp 0-4 Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Male between 0-4years
55. inpttp 0-4 Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Female between 0-4years
56. inpttp 5-9 Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Male between 5-9years
57. inpttp 5-9 Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Female between 5-9years
58. inpttp 6-14 Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Male between 6-14years
59. inpttp 6-14 Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for female between 6-14years
60. inpttp 15-49 Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Male between 15-49years
61. inpttp 15-49 Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Female between 15-49years
62. inpttp 50-64 Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Male between 50-64years

63. inpttp 50-64 Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Female between 50-64years
64. inpttp 65+ Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Male between 65+years
65. inpttp 65+ Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for Female between 65+years
66. inpttp All Male: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for All Male
67. inpttp All Female: Share of Population with Incidence of Hospitalization/Admission in Last 12 Months by Sex and Age Group (in percent to total population) for All Female
68. ubny 0-4 Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Male between 0-4years
69. ubny 0-4 Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Female between 0-4years
70. ubny 5-9 Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Male between 5-9years
71. ubny 5-9 Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Female between 5-9years
72. ubny 6-14 Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Male between 6-14years
73. ubny 6-14 Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Female between 6-14years
74. ubny 15-49 Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Male between 15-49years
75. ubny 15-49 Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Female between 15-49years
76. ubny 50-64 Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Male between 50-64years
77. ubny 50-64 Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Female between 50-64years
78. ubny 65+ Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Male between 65+years
79. ubny 65+ Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for Female between 65+years
80. ubny All Male: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for All Male
81. ubny All Female: Use of Insecticide Treated Mosquito Net (in percent of all individuals who slept under bed net yesterday) for All Female

#### **4. Employment and Remittances**

1. By Activity Wage Male: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Wage for Male
2. By Activity Wage Female: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Wage for female
3. By Activity Farm Male: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Farm for Male
4. By Activity Farm Female: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Farm for Female
5. By Activity Non-Farm Male: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Non-Farm for Male
6. By Activity Non-Farm Female: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Non-Farm for Female
7. By Activity Apprenticeship Male: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Apprenticeship for Male
8. By Activity Apprenticeship Female: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Apprenticeship for Female
9. By Activity Mixed Male: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Mixed for Male
10. By Activity Mixed Female: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) By Activity of Mixed for Female
11. No Activity Male: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) by No Activity for Male
12. No Activity Female: Participation in the Labour Activities in the Last 7 Days (in percent of individuals above 15 years of age) by No Activity for Female
13. in h By Activity Wage Male: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Wage for Male
14. in h By Activity Wage Female: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Wage for Female
15. in h By Activity Farm Male: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Farm for Male
16. in h By Activity Farm Female: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Farm for Female
17. in h By Activity Non-Farm Male: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Non-Farm for Male
18. in h By Activity Non-Farm Female: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Non-Farm for Female
19. in h By Activity Mixed Male: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Mixed for Male
20. in h By Activity Mixed Female: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) By Activity of Mixed for Female

21. in h All Male: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) for All Male
22. in h All Female: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) for All Female
23. in h Total: Average Hours Spent in Labour Activities in the Last 7 Days by Type of Activity and Sex (in hours, among individuals engaged in specific activity) for All Male
24. Household duties Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Male with Household duties
25. Household duties Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Female with Household duties
26. in-school Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Male who are in-school
27. in-school Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Female who are in-school
28. F/W Male (Found/Waiting for results from search/previous job/season Male): Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Male who are Found/Waiting for results from search/previous job/season
29. F/W Female (Found/Waiting for results from search/previous job/season Female): Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Female who are Found/Waiting for results from search/previous job/season
30. No jobs in area Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) due to No jobs in area for Male
31. No jobs in area Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) due to No jobs in area for Female
32. No jobs for skill set Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) due to No jobs for skill set for Male
33. No jobs for skill set Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) due to No jobs for skill set for Female
34. Too young/old Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Male that are Too young/old
35. Too young/old Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Female that are Too young/old
36. Sickness/illness Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Male due to Sickness/illness
37. Sickness/illness Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Female due to Sickness/illness
38. Other Male: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Other Male
39. Other Female: Reasons for Not Looking for Job in the Last 4 weeks (in percent of individuals not engaged in employment activity) for Other Female
40. Agriculture Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Agriculture
41. Agriculture Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) or Female in Agriculture
42. Mining/Construction Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Mining/Construction
43. Mining/Construction Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Mining/Construction

44. Manufacturing Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Manufacturing
45. Manufacturing Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Manufacturing
46. E/W/G/W Male (Electricity/Water/Gas/Waste Male): Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Electricity/Water/Gas/Waste
47. E/W/G/W Female (Electricity/Water/Gas/Waste Female): Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Electricity/Water/Gas/Waste
48. P/S/T Male (Professional/Scientific/Technical Male): Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Professional/Scientific/Technical
49. P/S/T Female (Professional/Scientific/Technical Female): Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Professional/Scientific/Technical
50. Transportation Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Transportation
51. Transportation Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Transportation
52. Buying and Selling Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Buying and Selling
53. Buying and Selling Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Buying and Selling
54. F/I/RES Male (Financial/Insurance/Real Estate Services Male): Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Financial/Insurance/Real Estate Services
55. F/I/RES Female (Financial/Insurance/Real Estate Services Female): Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Financial/Insurance/Real Estate Services
56. Personal Services Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Personal Services
57. Personal Services Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Personal Services
58. Education Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Education
59. Education Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Education
60. Health Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Health
61. Health Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Health
62. Public Administration Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Male in Public Administration
63. Public Administration Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Female in Public Administration
64. Other Male: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Other Male
65. Other Female: Industry of Activity for Wage Employment by Sex (in percent of individuals engaged in wage employment) for Other Female

66. Public Federal Male: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Male who work for Public Federal organization
67. Public Federal Female: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Female who work for Public Federal organization
68. Public State Male: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Male who work for Public State organization
69. Public State Female: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Female who work for Public State organization
70. Public Local Male: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Male who work for Public Local organization
71. Public Local Female: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Female who work for Public Local organization
72. Private Sector Male: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Male who work for Private Sector organization
73. Private Sector Female: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Female who work for Private Sector organization
74. Religious Male: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Male who work for Religious organization
75. Religious Female: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Female who work for Religious organization
76. Other Male: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Other Male
77. Other Female: Type of Employer for Wage Employment (in percent of individuals engaged in wage employment) for Other Female
78. Study only Male: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Male who Study only
79. Study only Female: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Female who Study only
80. Work and study Male: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Male who Work and study
81. Work and study Female: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Female who Work and study
82. Work only Male: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Male who Work only
83. Work only Female: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Female who Work only
84. Not working or studying Male: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Male who are Not working or studying
85. Not working or studying Female: Children's Activity Status by Sex (in percent of population of 5-14 years of age) for Female who are Not working or studying
86. Collected Water Male: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Male who Collected Water
87. Collected Water Female: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Female who Collected Water
88. Time to Collect less than 1hr (hour) Male: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Male with Time to Collect less than 1hr (hour)
89. Time to Collect less than 1hr (hour) Female: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Female with Time to Collect less than 1hr (hour)

90. Time to Collect 2-4 hours Male: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Male with Time to Collect 2-4 hours
91. Time to Collect 2-4 hours Female: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Female with Time to Collect 2-4 hours
92. Time to Collect More than 4hrs Male: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Male with Time to Collect More than 4hrs
93. Time to Collect More than 4hrs Female: Incidence (in percent of population) and Time Spent Collecting Water in the Past 7 Days (in percent) for Female with Time to Collect More than 4hrs
94. Collected Wood or other Natural Products Male: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Male who Collected Wood or other Natural Products
95. Collected Wood or other Natural Products Female: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Female who Collected Wood or other Natural Products
96. Time to collect less than 1hr (hour) Male: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Male with Time to collect less than 1hr (hour)
97. Time to collect less than 1hr (hour) Female: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Female with Time to collect less than 1hr (hour)
98. Time to collect 1-2hrs (hours) Male: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Male with Time to collect 1-2hrs (hours)
99. Time to collect 1-2hrs (hours) Female: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Female with Time to collect 1-2hrs (hours)
100. Time to collect 2-4hrs (hours) Male: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Male with Time to collect 2-4hrs (hours)
101. Time to collect 2-4hrs (hours) Female: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Female with Time to collect 2-4hrs (hours)
102. Time to collect More than 4hrs (hours) Male: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Male with Time to collect More than 4hrs (hours)
103. Time to collect More than 4hrs (hours) Female: Incidence (in percent of population) and Time Spent Collecting Wood or Other Natural Products in the Past 7 Days (in percent) for Female with Time to collect More than 4hrs (hours)

## 6. Non-Farm Enterprise

1. % of HH with Any Nonfarm Enterprise: Prevalence of Engagement and Registration of Nonfarm Enterprise Activities (in percent) in % of Household with Any Non-farm Enterprise
2. % of Nonfarm Enterprises Registered: Prevalence of Engagement and Registration of Nonfarm Enterprise Activities (in percent) in % of Nonfarm Enterprises Registered

3. Average # of HH Member Workers: Prevalence of Engagement and Registration of Nonfarm Enterprise Activities (in percent) in Average # of Household Member Workers
4. Average # of Hired Workers: Prevalence of Engagement and Registration of Nonfarm Enterprise Activities (in percent) in Average # of Hired Workers
5. Retail trade: Type of Nonfarm Enterprise Activity in percent of NFE) for Retail trade
6. Wholesale trade: Type of Nonfarm Enterprise Activity in percent of NFE) for Wholesale trade
7. Service activities Other personal: Type of Nonfarm Enterprise Activity in percent of NFE) for Service activities for example Other personal
8. Service activities Food/beverage: Type of Nonfarm Enterprise Activity in percent of NFE) for Service activities for example Food/beverage
9. Transport: Type of Nonfarm Enterprise Activity in percent of NFE) for Transport
10. Manufacturing clothes: Type of Nonfarm Enterprise Activity in percent of NFE) for Manufacturing clothes
11. Manufacturing Food: Type of Nonfarm Enterprise Activity in percent of NFE) for Manufacturing Food
12. Construction: Type of Nonfarm Enterprise Activity in percent of NFE) for Construction
13. Ownership Only male(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for male(s) who have Ownership Only
14. Ownership Only female(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for female(s) who have Ownership Only
15. Ownership Only Male(s) & female(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for Male(s) and female(s) who have Ownership Only
16. Management Only male(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for male(s) who do the Management Only
17. Management Only female(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for female(s) who do the Management Only
18. Management Only Male(s) & female(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for Male(s) and female(s) who do the Management Only
19. Ownership & Management Only male(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for male(s) who have Ownership and Management Only
20. Ownership & Management Only female(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for female(s) who have Ownership and Management Only
21. Ownership & Management Only male(s) & female(s): Nonfarm Enterprise Ownership and Management (in percent of NFE) for male(s) and female(s) who have Ownership and Management Only
22. No capital: Source of Start-up Capital for Nonfarm Enterprise (in percent of NFE) with No capital
23. Household savings: Source of Start-up Capital for Nonfarm Enterprise (in percent of NFE) who get from Household savings
24. Relatives/friends: Source of Start-up Capital for Nonfarm Enterprise (in percent of NFE) who get from Relatives/friends
25. Proceeds from family farm: Source of Start-up Capital for Nonfarm Enterprise (in percent of NFE) who get from Proceeds from family farm

26. Esusu/adashi/ajo: Source of Start-up Capital for Nonfarm Enterprise (in percent of NFE) who get from Esusu/adashi/ajo
27. Other: Source of Start-up Capital for Nonfarm Enterprise (in percent of NFE) who get from Other
28. Final consumers: Destination of Products and Services (in percent of NFE) to Final consumers
29. Traders: Destination of Products and Services (in percent of NFE) to Traders
30. Other small businesses: Destination of Products and Services (in percent of NFE) to Other small businesses
31. Other: Destination of Products and Services (in percent of NFE) to Other
32. No constraints: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with No constraints
33. Constraints Electricity: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with Electricity as a constraint
34. Constraints Unable to borrow money: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with being Unable to borrow money as a constraint
35. Constraints low demand: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with low demand as a constraint
36. Constraints Transportation: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with Transportation as a constraint
37. Constraints Access to markets: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with Access to markets as a constraint
38. Constraints Unwilling to borrow money: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with being Unwilling to borrow money as a constraint
39. Constraints Other: Constraints to Starting a Nonfarm Enterprise (in percent of NFE) with Other as a constraint
40. No constraints: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with No constraints
41. Constraints Electricity: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with Electricity as a constraint
42. Constraints Unable to borrow money: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with being Unable to borrow money as a constraint
43. Constraints low demand: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with low demand as a constraint
44. Constraints Transportation: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with Transportation as a constraint
45. Constraints Access to markets: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with Access to markets as a constraint
46. Constraints Unwilling to borrow money: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with being Unwilling to borrow money as a constraint
47. Constraints Other: Constraints to Nonfarm Enterprise Operation and Growth (in percent of NFE) with Other as a constraint

## 7. Housing and Living Conditions

1. Separate House: Type of Dwelling (in percent to total number of households) for example Separate House
2. Semi-detached House: Type of Dwelling (in percent to total number of households) for example Semi-detached House
3. Flat/Apartment: Type of Dwelling (in percent to total number of households) for example Flat/Apartment
4. Compound House: Type of Dwelling (in percent to total number of households) for example Compound House
5. Huts/building (same compound): Type of Dwelling (in percent to total number of households) for example Huts/building (same compound)
6. Huts/building (different compound): Type of Dwelling (in percent to total number of households) for example Huts/building (different compound)
7. Other: Type of Dwelling (in percent to total number of households) for example Other
8. Owned: Type of Dwelling Ownership (in percent to total number of households) for Owned
9. Rented: Type of Dwelling Ownership (in percent to total number of households) for Rented
10. Free, authorized: Type of Dwelling Ownership (in percent to total number of households) for Free, authorized
11. Free, not authorized: Type of Dwelling Ownership (in percent to total number of households) for Free, not authorized
12. Owned No document: Type of Dwelling Ownership (in percent to total number of households) for Owned No document
13. Owned Title deed: Type of Dwelling Ownership (in percent to total number of households) for Owned Title deed
14. Owned Receipt of payment: Type of Dwelling Ownership (in percent to total number of households) for Owned Receipt of payment
15. Owned Survey plan: Type of Dwelling Ownership (in percent to total number of households) for Owned Survey plan
16. Owned Certificate of occupancy/customary certificate: Type of Dwelling Ownership (in percent to total number of households) for Owned Certificate of occupancy/customary certificate
17. Rented No document: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Rented with No document
18. Rented Receipt of payment: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Rented with Rented Receipt of payment
19. Rented leasehold/Tenancy agreement: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Rented with leasehold/Tenancy agreement
20. Free, authorized No document: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Free, authorized with No document
21. Free, authorized leasehold/Tenancy agreement: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Free, authorized with leasehold/Tenancy agreement

22. Mud: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Mud
23. Bricks: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Bricks
24. Cement/Concrete: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Cement/Concrete
25. Wood/Bamboo: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Wood/Bamboo
26. Other: Dwelling Occupancy Document by Occupancy Status (in percent to total number of households in category) for Other
27. Thatch: Housing Structure: Roofing Material (in percent to total number of households) for Thatch
28. Corrugated iron sheets: Housing Structure: Roofing Material (in percent to total number of households) for Corrugated iron sheets
29. Asbestos sheet: Housing Structure: Roofing Material (in percent to total number of households) for Asbestos sheet
30. Zinc sheet: Housing Structure: Roofing Material (in percent to total number of households) for Zinc sheet
31. Mud: Housing Structure: Roofing Material (in percent to total number of households) for Mud
32. Long/short span sheet: Housing Structure: Roofing Material (in percent to total number of households) for Long/short span sheet
33. Other: Housing Structure: Roofing Material (in percent to total number of households) for Other
34. Sand/Dirt/Straw: Housing Structure: Flooring Material (in percent to total number of households) for Sand/Dirt/Straw
35. Smoothed mud: Housing Structure: Flooring Material (in percent to total number of households) for Smoothed mud
36. Smooth cement/concrete: Housing Structure: Flooring Material (in percent to total number of households) for Smooth cement/concrete
37. Tiles: Housing Structure: Flooring Material (in percent to total number of households) for Tiles
38. Other: Housing Structure: Flooring Material (in percent to total number of households) for Other materials
39. One: Housing Structure: Rooms (in percent to total number of households) for One
40. Two: Housing Structure: Rooms (in percent to total number of households) for Two
41. Three: Housing Structure: Rooms (in percent to total number of households) for Three
42. Four: Housing Structure: Rooms (in percent to total number of households) for Four
43. Five or more: Housing Structure: Rooms (in percent to total number of households) for Five or more
44. 3-stone/open fire: Primary Cookstove Type (in percent to total number of households) for 3-stone/open fire
45. Self-built biomass: Primary Cookstove Type (in percent to total number of households) for Self-built biomass

46. Manufactured biomass: Primary Cookstove Type (in percent to total number of households) for Manufactured biomass
47. LPG/ natural gas: Primary Cookstove Type (in percent to total number of households) for LPG/ natural gas
48. Kerosene: Primary Cookstove Type (in percent to total number of households) for Kerosene
49. Electric: Primary Cookstove Type (in percent to total number of households) for Electric
50. Other: Primary Cookstove Type (in percent to total number of households) for Other type
51. In dwelling, not a sleeping area: Primary Cookstove Location (in percent to total number of households) for In dwelling, not a sleeping area
52. In dwelling, in a sleeping area: Primary Cookstove Location (in percent to total number of households) for In dwelling, for not a sleeping area
53. In a separate dwelling: Primary Cookstove Location (in percent to total number of households) for In a separate dwelling
54. In a veranda: Primary Cookstove Location (in percent to total number of households) for In a veranda
55. Outdoors: Primary Cookstove Location (in percent to total number of households) for Outdoors
56. Other: Primary Cookstove Location (in percent to total number of households) for Other Location
57. Access to electricity: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those with Access to electricity
58. PRIMARY SOURCE National Grid: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those whose Primary Source is National Grid
59. PRIMARY SOURCE Mini Grid: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those whose Primary Source is Mini Grid
60. PRIMARY SOURCE Generator: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those whose Primary Source is Generator
61. PRIMARY SOURCE Solar home system/ Solar lantern: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those whose Primary Source is Solar home system/ Solar lantern
62. PRIMARY SOURCE Rechargeable battery/ Inverters: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those whose Primary Source is Rechargeable battery/ Inverters
63. PRIMARY SOURCE Other: Access to Electricity and Primary Source of Electricity (in percent to total number of households) for those whose Primary Source is Other
64. National Grid: All Sources of Electricity (in percent of households with electricity) for those with National Grid
65. Mini Grid: All Sources of Electricity (in percent of households with electricity) for those with Mini Grid
66. Generator: All Sources of Electricity (in percent of households with electricity) for those with Generator
67. Solar home system/ Solar lantern: All Sources of Electricity (in percent of households with electricity) for those with Solar home system/ Solar lantern

68. Rechargeable battery/Inverters: All Sources of Electricity (in percent of households with electricity) for those with Rechargeable battery/Inverters
69. Other: All Sources of Electricity (in percent of households with electricity) for those with Other sources
70. National Grid Day: Average Number of Hours of Electricity Per Day in the Past 7 Days (in percent of households with electricity) for those that use National Grid during the Day
71. National Grid Between 6pm & 10pm: Average Number of Hours of Electricity Per Day in the Past 7 Days (in percent of households with electricity) for those that use National Grid Between 6pm & 10pm
72. Generator Day: Average Number of Hours of Electricity Per Day in the Past 7 Days (in percent of households with electricity) for those that use Generator during the Day
73. Generator Between 6pm & 10pm: Average Number of Hours of Electricity Per Day in the Past 7 Days (in percent of households with electricity) for those that use Generator Between 6pm & 10pm
74. Other Day: Average Number of Hours of Electricity Per Day in the Past 7 Days (in percent of households with electricity) for those that use Other Sources during the Day
75. Other Between 6pm & 10pm: Average Number of Hours of Electricity Per Day in the Past 7 Days (in percent of households with electricity) for those that use Other sources Between 6pm & 10pm
76. Piped: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Piped
77. Public tap/standpipe: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Public tap/standpipe
78. Tube well/Borehole: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Tube well/Borehole
79. Protected dug well/spring: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Protected dug well/spring
80. Unprotected dug well/spring: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Unprotected dug well/spring
81. Rainwater collection: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Rainwater collection
82. Surface water: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Surface water
83. Bottled water/Sachet water: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Bottled water/Sachet water
84. Other: Source of Drinking Water Piped (Rainy Season) (in percent to total number of households) for Other sources
85. Piped: Source of Drinking Water (Dry Season) (in percent to total number of households) for Piped
86. Public tap/standpipe: Source of Drinking Water (Dry Season) (in percent to total number of households) for Public tap/standpipe
87. Tube well/Borehole: Source of Drinking Water (Dry Season) (in percent to total number of households) for Tube well/Borehole

88. Protected dug well/spring: Source of Drinking Water (Dry Season) (in percent to total number of households) for Protected dug well/spring
89. Unprotected dug well/spring: Source of Drinking Water (Dry Season) (in percent to total number of households) for Unprotected dug well/spring
90. Rainwater collection: Source of Drinking Water (Dry Season) (in percent to total number of households) for Rainwater collection
91. Surface water: Source of Drinking Water (Dry Season) (in percent to total number of households) for Surface water
92. Bottled water/Sachet water: Source of Drinking Water (Dry Season) (in percent to total number of households) for Bottled water/Sachet water
93. Other: Source of Drinking Water (Dry Season) (in percent to total number of households) for Other sources
94. Treat water: Drinking Water Treatment (in percent to total number of households) for those who Treat water
95. TREATMENT METHOD Boil: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is to Boil
96. TREATMENT METHOD Add bleach/chlorine: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is to Add bleach/chlorine
97. TREATMENT METHOD Strain through cloth: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is to Strain through cloth
98. TREATMENT METHOD Water filter: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is Water filter
99. TREATMENT METHOD Solar disinfection: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is Solar disinfection
100. TREATMENT METHOD Settle: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is Settle
101. TREATMENT METHOD Other: Drinking Water Treatment (in percent to total number of households) for those whose treatment method is Other treatment
102. No facilities bush or field: Toilet Facilities (in percent to total number of households) for those with No facilities and to either use bush or field
103. Flush to piped sewage system/septic tank: Toilet Facilities (in percent to total number of households) for those who Flush to piped sewage system/septic tank
104. Flush to pit latrine: Toilet Facilities (in percent to total number of households) for those who Flush to pit latrine
105. Ventilated improved latrine: Toilet Facilities (in percent to total number of households) for those with Ventilated improved latrine
106. Pit latrine with slab: Toilet Facilities (in percent to total number of households) for those with Pit latrine with slab
107. Pit latrine without slab/open pit: Toilet Facilities (in percent to total number of households) for those without slab/open pit
108. Composting toilet: Toilet Facilities (in percent to total number of households) for those with Composting
109. Hanging toilet/hanging latrine: Toilet Facilities (in percent to total number of households) for those with Hanging toilet/hanging latrine

110. Other: Toilet Facilities (in percent to total number of households) for those with Other Toilet Facilities
111. Assets-Sewing machine: Selected Household Asset Ownership (in percent to total number of households) for those with Sewing machine as an Asset
112. Assets-Stove/cooker: Selected Household Asset Ownership (in percent to total number of households) for those with Stove/cooker as an Asset
113. Assets-Fridge: Selected Household Asset Ownership (in percent to total number of households) for those with Fridge as an Asset
114. Assets-Freezer: Selected Household Asset Ownership (in percent to total number of households) for those with Freezer as an Asset
115. Assets-Bicycle: Selected Household Asset Ownership (in percent to total number of households) for those with Bicycle as an Asset
116. Assets-Motorbike: Selected Household Asset Ownership (in percent to total number of households) for those with Motorbike as an Asset
117. Assets-Cars and other vehicles: Selected Household Asset Ownership (in percent to total number of households) for those with Cars and other vehicles as an Asset  
Assets-Generator: Selected Household Asset Ownership (in percent to total number of households) for those with Generator as an Asset
118. Fan: Selected Household Asset Ownership (in percent to total number of households) for those with Fan as an Asset
119. Radio: Selected Household Asset Ownership (in percent to total number of households) for those with Radio as an Asset
120. Iron: Selected Household Asset Ownership (in percent to total number of households) for those with Iron as an Asset
121. TV Set: Selected Household Asset Ownership (in percent to total number of households) for those with TV Set as an Asset
122. DVD player: Selected Household Asset Ownership (in percent to total number of households) for those with DVD player as an Asset
123. Satellite dish: Selected Household Asset Ownership (in percent to total number of households) for those with Satellite dish as an Asset
124. Smart phone: Selected Household Asset Ownership (in percent to total number of households) for those with Smart phone as an Asset
125. Regular mobile phone: Selected Household Asset Ownership (in percent to total number of households) for those with Regular mobile phone as an Asset

### **7. Consumption frequency of food categories and household shock**

- 126.FOOD CATEGORIES Grains & Flours: Number of Days Per Week the Household Consumed Food Category (in days) for Grains & Flour
- 127.FOOD CATEGORIES Starchy Roots, Tubers, & Plantains: Number of Days Per Week the Household Consumed Food Category (in days) for Starchy Roots, Tubers, & Plantains,
- 128.FOOD CATEGORIES Pulses, Nuts, & Seeds: Number of Days Per Week the Household Consumed Food Category (in days) for Pulses, Nuts, & Seeds

129. FOOD CATEGORIES Vegetables: Number of Days Per Week the Household Consumed Food Category (in days) for Vegetables
130. FOOD CATEGORIES Meat, Fish, & Animal Products: Number of Days Per Week the Household Consumed Food Category (in days) for Meat, Fish, & Animal Products
131. FOOD CATEGORIES Fruits: Number of Days Per Week the Household Consumed Food Category (in days) for Fruits
132. FOOD CATEGORIES Milk & Milk Products: Number of Days Per Week the Household Consumed Food Category (in days) for Milk & Milk Products
133. FOOD CATEGORIES Oils and Fats: Number of Days Per Week the Household Consumed Food Category (in days) for Oils and Fats
134. FOOD CATEGORIES Sugar, Sugar Products, & Honey: Number of Days Per Week the Household Consumed Food Category (in days) for Sugar, Sugar Products, & Honey
135. FOOD CATEGORIES Spices & Condiments: Number of Days Per Week the Household Consumed Food Category (in days) for Spices & Condiments
136. Any meals shared (%): Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Any meals shared
137. Children 0-5 years Number of days with shared meal: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of days with shared meal for Children between 0-5 years
138. Children 0-5 years Number of shared meals: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of shared meals for Children between 0-5 years
139. Children 6-15 years Number of days with shared meal: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of days with shared meal for Children between 6-15 years
140. Children 6-15 years Number of shared meals: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of shared meals for Children between 6-15 years
141. Adults 16-65 years Number of days with shared meal: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of days with shared meal for Adults between 16-65 years
142. Adults 16-65 years Number of shared meals: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of shared meals for Adults 16-65 years
143. Adults 66 years & older Number of days with shared meal: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of days with shared meal for Adults 66 years & older
144. Adults 66 years & older Number of shared meals: Meals Shared with Non-household Members in the Past 7 Days (in percent of household who shared meals) for Number of shared meals for Adults 66 years & older
145. Increase in price of major food items consumed: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Increase in price of major food items consumed

146. Theft of crops, cash, livestock or other property: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Theft of crops, cash, livestock or other property
147. Death, disability, illness or departure of working household member: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Death, disability, illness or departure of working household member
148. Nonfarm business failure: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Nonfarm business failure
149. Death of someone who sends remittances to the household: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Death of someone who sends remittances to the household
150. Poor rains, flooding, fire or pest that caused harvest failure: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Poor rains, flooding, fire or pest that caused harvest failure
151. Death of livestock due to illness: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Death of livestock due to illness
152. Increase in price of inputs: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Increase in price of inputs
153. Other: Percentage of HH Reporting Shocks in Last 3 Years (in percent to total number of households) caused by Other factors
154. No coping mechanism COPING MECHANISM Reduced food consumption: Coping Mechanism (in percent of households reporting any shock) for those with No coping mechanism
155. COPING MECHANISM Reduced non-food consumption: Coping Mechanism (in percent of households reporting any shock) for those who do Reduced non-food consumption
156. COPING MECHANISM Received assistance from friends & family: Coping Mechanism (in percent of households reporting any shock) for those who Received assistance from friends & family
157. COPING MECHANISM Engaged in additional income generating activity: Coping Mechanism (in percent of households reporting any shock) for those who Engaged in additional income generating activity
158. COPING MECHANISM Sale of livestock: Coping Mechanism (in percent of households reporting any shock) for those who do Sale of livestock
159. COPING MECHANISM Relied on savings: Coping Mechanism (in percent of households reporting any shock) for those who Relied on savings
